

# Howto jailbreak

---

## Backup !!

---

**Please make sure to backup your device using iCloud or iTunes! *Please dont forget this step!***

---

### Check iOS version

Check if there is a jailbreak available for you device and iOS version at [the iPhone Wiki](#)

## Yalu

---

Download the latest [Yalu jailbreak IPA](#) and [Cydia Impactor](#) and save them to a folder on your computer.

## Impactor

---

- Connect your iPhone to your computer via USB and Launch Impactor. Please make sure to select Trust if prompted.
- Drag and drop the mach\_portal+yalu IPA downloaded earlier into the Cydia Impactor app.
- You will be asked to enter your Apple ID and password. This is used to sign the IPA, so it can run on your device.
- Cydia Impactor will sign the IPA and install the new Yalu jailbreak app (mach\_portal) on your device.
- Trust the developer profile created under your email address.
- Return to the Home screen and launch the Yalu (mach\_portal) app. You'll see a white screen displayed for about 15-20 seconds.

Your device shall reboot and you'll have Cydia on your SpringBoard!

**Congratulations, you're jailbroken!**
